

Success By 6

annual report
2013 / 2014

“

The province has been an international pioneer in the development of a community based infrastructure to support collaborative planning for young children and families. Through initiatives like Children First and Success By 6, we have managed, for minimal cost, to build a network of effective local leadership for children.

”

— Dr. Clyde Hertzman, in a letter to the provincial government. (2010)

Founding Director, Human Early Learning Partnership, University of British Columbia

Message from the Chair

The Success by Six Early Childhood Development Provincial Partnership is pleased to release our 2013/2014 annual report. This report allows us to not only acknowledge the important work being undertaken by the Partnership, but also allows us a moment to stop and recognize an important milestone for the program: the 10 year anniversary of the signing of the Early Childhood Development Provincial Partnership.

What began in May 2003 when leaders from United Way, the Ministry of Children & Family Development and the Credit Unions of BC came together with a vision of improving the lives of children across the province, has today grown into a program working in over 20 regions across the province to build child and family friendly communities.

Success by Six has been incredibly successful over the past decade, with concentrated efforts to have local United Ways, MCFD and Credit Union representatives engage local community leaders to guide the work of the program. The engagement of local citizens has been a key to the success we see today. In particular, the engagement of local Aboriginal leaders and communities has bolstered our work.

Today Success by Six supports the work of over 100 Early Years and Aboriginal Early Years councils. We're proud that the spirit of inclusivity that brought United Way, MCFD and the Credit Unions of BC together has shaped these councils which bring together many sectors including health, education, municipalities, early years professionals, faith groups, the business community and so many more. These councils work to research the unique needs and obstacles faced by children in their communities and develop strategic plans to address those needs collaboratively. I know the Success by Six Early Childhood Development Provincial Partnership is proud to fund work on these strategic plans and help councils leverage community partnerships.

Looking back at 10 years of Success by Six and the ECDPP, we could not have come as far as we have without the work and support of many. Many thanks to the Province of British Columbia via MCFD, the Credit Unions of British Columbia, Aboriginal Leaders and United Ways of BC. Thank you to the provincial team including the community coordinators who are on the ground each day working for a better tomorrow. But most of all, we'd like to thank each and every one of you who has contributed to the Success by Six program. You are making a difference in the lives of BC's children. The impact you are making will be felt not only today, but well into the future as each child grows. You are truly helping each child succeed for life.

Thank you,

Michael McKnight, Chair
Early Childhood Development Provincial Partnership

Success By 6 Funding Streams

Success By 6 BC allocates funding to all regions of BC through three streams

Capacity

Capacity funding supports Success By 6 coordinator positions throughout the province.

Our coordinators focus on:

- Supporting their local Early Childhood Development Councils;
- Building public awareness about the importance of the early years;
- Conducting research into the community needs of young children and their families and establishing funding priorities;
- Expanding the scope of community partnerships and collaborations.

Through the numerous partnerships they have developed, our coordinators leverage additional funding to assist with the many projects supported by Success By 6.

Aboriginal ECD Funds

The Aboriginal ECD funding stream supports Aboriginal-identified priorities for supporting children and families. The funds are distributed to 20 local Success By 6 initiatives who in turn work with Aboriginal communities in their region to fund key priorities such as training and development and cultural resource development.

To guide this work, the Aboriginal Engagement Strategy outlines four key priorities:

- Increase Aboriginal participation and representation in the initiative;
- Work with Aboriginal communities to strengthen community capacity building;
- Increase cultural awareness within the context of Aboriginal ECD;
- Promote and increase awareness of the importance of ECD.

The strategy is designed to promote the development of partnerships, relationships and collaboration across cultures and communities to support Aboriginal children and their families.

Strategic Implementation

Success By 6 provides Strategic Implementation funding to all regions. These funds are used to assist with addressing the community identified priority needs for young children and their families.

Projects that support positive parenting, early literacy, nutrition, physical activity, parks, child care and much more receive funds through the Strategic Implementation funding stream.

Provincial Projects

A New Look for Our Website

In 2013/2014 Success By 6 did a complete refresh of our provincial website. This new site provides a much broader understanding of the depth and breadth of the work being done by Success By 6 across BC. A new page “In Your Community” focuses on the work happening in regions. The “What We Do” page provides links to all of the provincial resources, previous annual reports, a history of Success By 6 and much more. “Aboriginal Engagement” and “Early Years Evaluation” pages give in-depth looks at the work being accomplished in these areas of focus. Check it out at www.successby6bc.ca

First Steps & Beyond

Each year for the past seven years, the Credit Unions of BC have donated 25 cents per member per year to Success By 6. These funds are directed towards projects that help build awareness of the importance of the early years.

This year a new resource for parents was developed. The First Steps and Beyond booklets are filled with helpful information for new parents including:

- stages of development from birth to six years,
- activities for encouraging development at all stages,
- recognizing when to seek help if you have questions about your child's development,
- early dental, hearing and vision care,
- sections on nutrition and food, safety, taking care of yourself,
- a simple kindergarten checklist and preparing your child for kindergarten.

Over 100,000 copies of the booklet were printed and distributed throughout BC through credit unions, Success By 6 coordinators and Aboriginal coordinators, public health nurses and early childhood professionals.

An online version of the First Steps and Beyond booklet can be found on the Success By 6 website: <http://www.successby6bc.ca/what-we-do/projects/early-years-resources>

Facebook

Have you checked us out on Facebook? Over 4,500 people have joined. You can too, at: <https://www.facebook.com/SuccessBy6BC>

First Nations Health Authority Early Years Resources

In recognition of the traditional, cultural parenting practices of our Aboriginal communities and families, credit union funding allowed us to print Aboriginal childhood health and wellness resources. Through a partnership with the First Nations Health Authority (FNHA), Success By 6 was granted permission to reprint copies of four Aboriginal childhood health and wellness resources developed by the FNHA. These included:

- Parents as First Teachers
- Growing Up Healthy
- Fatherhood is Forever
- Family Connections

Over 80,000 copies of these booklets were printed and distributed throughout BC through credit unions, Success By 6 coordinators and Aboriginal coordinators, Aboriginal communities and organizations, public health nurses and early childhood professionals.

An online version of these resources can be found on the Success By 6 website at: <http://www.successby6bc.ca/what-we-do/projects/early-years-booklet>

Reporting & Accountability

This year we began work on a project that will allow us to roll up data provincially on all of the projects supported by Success By 6. Once completed, these reporting tools will allow us to get a better understanding of the impact Success By 6 is having.

Because Success By 6 supports such a wide range of programs and projects, our first task was to narrow down the funding categories. Some of the categories include: early learning and care programs, indigenous children's development, capital grants, parenting education and supports, events, indigenous cultural resources, education and training, indigenous training, and public awareness. Once categories were identified, we then set out to develop the questions and determine what data we would collect for each one.

Work continues on this project and all recipients of Success By 6 funding will report out on their program/project at the end of the 2014/2015 fiscal year. This is another resource that we are providing to our Early Years provincial partners.

Community Stories

Between April 2013 and March 2014 Success By 6 supported over 500 programs and projects. Virtually every one of them involved partners who contributed to their success. What follows are a few stories of how, through the spirit of collaboration, communities are making a difference for young children.

Children's Drumming Circles

Twelve children's drumming circles were held throughout the Boundary region from Christina Lake to Beaverdell between November 2013 to February 2014. 89 children and 87 adults attended the circles. This Aboriginal Success by 6 initiative was made possible by partnering with Strong Start centres, the Boundary Child Care Resource & Referral, the Babies Best Chance program and the Boundary Métis Community Association. Each drumming circle incorporated traditional songs and the use of personal hand drums as well as a larger children's community drum. The circles began with an opening round using a traditional talking stick and Aboriginal stories were shared both orally and using picture books.

— *Boundary Region*

Pediatrician Outreach Services

The Clearwater & Area Success By 6 initiative has coordinated bringing pediatrician services to the community on a quarterly basis. Through collaborative efforts with Kamloops pediatricians and Interior Health, a pediatrician is now available for two-day clinics four times a year. Success By 6 strategic implementation funds helped to renovate a room at the local Neighbourhood Hub. The space provides a family-friendly clinic area for the pediatrician, as well as for other itinerant ECD service providers such as public health nurses, children's occupational therapists, physiotherapists, speech pathologists and infant/child mental health clinicians. — *Thompson Nicola Cariboo Region*

Big Red Book Shelf Program

A Success By 6 grant was provided to the Bella Coola Valley Learning Society for the "Big Red Book Shelf" program. Seven red book shelves have been placed in the community where children can get free books. They are located at both post offices, local groceries stores and the Nuxalk Band Office. Books were gathered over two years and donated to the program. To introduce and promote the shelves a community event was held with information, food and balloons given out. There was a great crowd and a lot of excitement in the community for the Big Red Book Shelf program. — *Central Coast Region*

Early Screening – Ages and Stages Day

The Ages and Stages Day has been a huge success in Trail and area. Service providers including infant and supported child development consultants, speech pathologists, occupational and physiotherapists, audiologists, dental and public health practitioners come together for families. The screening day allows parents to consult with professionals about any concerns they have about their child's development. The clinician/consultant is able to provide the parent with recommendations about activities to work on, and together they complete the Ages and Stages Assessment Questionnaire. Trail will continue to offer the Ages and Stages day annually and are now looking at offering a similar event in smaller communities throughout Trail and area. One parent comments: "it is great to be able to get my child's hearing tested, get information about dental and then talk to someone about how they are developing all under one roof". — *West Kootenay Region*

Small Town Savvy

In the Robson Valley, between the communities of Valemount and McBride, is the very small community of Dunster. A few years ago Dunster lost its elementary school but retained use of the building through a lease agreement. Many talented and resourceful residents developed several programs for the community using the school building. As there was no such program in the community, Success By 6 has provided funding to purchase equipment and materials to start a program for parents and preschool children. A second grant was provided to add tumbling equipment. Consequently families which were first inclined to leave the community when the school closed, have stayed and Dunster continues to be viable community to raise young children.

— *North Central Region*

Advocating for Young Families

On Family Literacy Day 2014 Success By 6 partnered with businesses, the City of Campbell River and the Regional District to host a presentation by Generation Squeeze founder Paul Kershaw. In total, 90 parents, business and young professionals, community agencies, front line workers, college students and school district personnel attended to hear Paul's message around the rights of young families. The venue, child minders and space for child minding were all donated; a testimony to the strong partnerships Success By 6 has built within this community to support our young children and families. In a community where the economy is still down, parents raved about being able to have "a date night" with little to no cost in a great atmosphere, with a great message.

— *North Vancouver Island Region*

Traditional Parenting

In Nakusp, an Aboriginal elder and Aboriginal service provider are providing a Traditional Parenting series that includes parenting information, crafts, songs, snacks and drumming reflective of the Aboriginal people in the region. The series is open to all interested families and has been well received. As a result, the number of families identifying as Aboriginal is growing. The Traditional Parenting classes have increased awareness in the community of the importance of honouring the rich Aboriginal cultures and a spin off impact has been an increase in cultural activities at the local child care centre. — *North Okanagan Region*

The ORCA Bus

The ORCA (On the Road with Children's Activities) Bus is a project of Success by 6 and the Powell River United Way. The bus is supported by volunteer seniors and brings early childhood development programming and resources to all preschoolers, including those in outlying communities in the Powell River area. The ORCA bus travels from Saltery Bay to Lund, including Texada Island, bringing information, programs, activities and fun to neighbourhoods along the way. The bus is currently on the road four days a week offering a variety of programming. In the coming months, the goal is to continue to build relationships and partner with diverse organizations and businesses within the community to increase programming on board the bus, and build greater community access to the bus. — *Powell River Region*

Aboriginal Gathering

In the fall 2013, the Aboriginal CATCH (Community Action Towards Children's Health) funded by Success By 6 hosted the 6th Annual Aboriginal Gathering at Westbank First Nation. This outdoor child-centred gathering included a shared meal of traditional foods, fun races, a bouncy-castle, petting zoo, pony rides, and traditional stick games. Children engaged in games like three-legged and sack races. The preschool-aged girls in the photo are from a variety of nations and cultures who became quick friends through the community gathering and activities. — *Central Okanagan Region*

Hop With Me

Each summer, when most programs for preschool children close their doors, a collaborative project called Hop with Me comes to life in the Comox Valley. This parent support/education/nutrition/physical activity program, funded by Success by 6, offers a weekly outdoor program for parents and children – birth to five – at Simm's Park in downtown Courtenay. A partnership between Comox Valley Family Services, PacificCARE, School District #71 Strong Start, Courtenay Recreation, CV Child Development Association and many others, this program supports healthy child development through a holistic community-based approach. Families participate in early literacy activities, learn about active living and share a nutritious lunch while networking with other families from across the community. This project is the result of the Success By 6 Early Years council recognizing gaps and needs in service – summertime parent supports and infant gross motor skill vulnerability – and providing an answer through collaborative agency partnership. — *North Vancouver Island Region*

Early Years Conference

In the spring of 2013, the East Kootenay region hosted the first semi-annual East Kootenay Early Years Conference. The event was a great success bringing together 175 Early Years professionals from around the region and province. The registration fees were made very affordable thanks to the generous support of many sponsors. Key note presenters included Dr. Stuart Shanker speaking on early years self regulation and Jennifer Kolari who presented the Connected Parenting Model. The conference was the perfect venue for providing collaboration opportunities and inspiration to those who offer such important services to our children and families.

— *East Kootenay Region*

Room to Bloom

The Room to Bloom Program focuses on learning about different cultures and child-rearing customs. Funded by Success by 6 and facilitated by the Dawson Creek Literacy Society, the program is held at the school during regular StrongStart sessions where new immigrants meet local families. Parents from different countries are invited to introduce traditional arts and crafts, teach songs and dances, numbers and alphabet as well as cook traditional foods to share. Children and parents become more sensitive and accepting of other cultures and parents learn about other child-rearing practices. New immigrants feel welcomed to the community, meet new friends, network with other parents and learn about community programs. Friendships are forged, intercultural understanding is increased, racism reduced; turning Dawson Creek into a welcoming community, and the StrongStart Center into a versatile Family Hub. — *South Peace Region*

Addressing Food Security

While completing their needs and gaps assessment during strategic planning this year, Barriere identified food security as a critical gap for families whose income level falls just above the poverty line. These families are not accessing the local food bank, and are struggling to meet the needs of their young families with respect to providing nutritious foods. The Barriere Early Years Community Table reached out to the Barriere Food Bank and the partnership that has formed has yielded many benefits. The Food Bank now has representation on the Early Years Table and actively participates in Success By 6 events and programs. This serves to increase their profile in the community as well as help bring in additional food donations which are collected at the events. The Food Bank now donates one food box per month to a family referred through members of the Early Years Table. This is helping to break down barriers and support families, who may not have accessed the Food Bank previously, developing a connection so they are more comfortable doing so in the future. — *Thompson Nicola Cariboo Region*

Success By 6 Turns Ten!

On May 21, 2013 Success By 6 marked the 10th anniversary of the signing of the Early Childhood Development Provincial Partnership which launched Success By 6 in BC. Over the past 10 years, that initial vision of bringing together communities to plan for and develop supports for young children and families has grown to become a vibrant, province-wide initiative involving hundreds of partners.

Here's to our next 10 years...
and the next 10 after that!!

Happy Anniversary Success By 6!

Financial Information

“There is now a credible body of evidence showing that one new dollar spent in the early childhood years on quality learning, development, parenting and care programs has the largest economic return to society (\$4 to \$8 returned per \$1 spent) of any new investment, even after discounting for inflation over the years and decades it takes for children to grow up). This return is much greater than one new dollar spent between kindergarten and grade 12 or, for that matter, at the postsecondary level.”¹

Early Childhood Development Provincial Partnership (ECDPP)

Financial Report for the Year Ended March 31, 2014, with comparative figures for 2013

	Total 2014	Total 2013
Balance, beginning of year	\$535,628	\$578,930
Revenue:		
Grants and other contributions	3,854,254	3,893,470
Investment income	9,508	10,160
	3,863,762	3,903,630
Expenditures:		
Grants	3,552,000	3,552,000
Distributions	507,416	394,932
	4,059,416	3,946,932
Excess (deficiency) of revenue over expenditures	-195,654	-43,302
Balance, end of year	\$339,974	\$535,628

Since the ECDPP'S inception in 2003, the United Way of the Lower Mainland (UWLM) has acted as the fiduciary – receiving and holding all funds donated and/or granted to the ECDPP for use in the implementation of the Provincial Success By 6 initiative. The information provided above is extracted from UWLM's audited financial statements and accounting records. For full financial information on UWLM, please contact their Finance Department. www.uwlm.ca

¹ Knudsen EI, Heckman JJ, Cameron JL, Shonkoff JP. Economic, Neurobiological, and Behavioral Perspectives on Building America's Future Workforce. *Proc Natl Acad Sci U S A*. 2006 Jul 5; 103(27):10155-62.

Figure A: Success By 6 Expenditures 2013-14

- Strategic Implementation | 37%
- Aboriginal Engagement | 25.9%
- Capacity | 24.6%
- Provincial Projects | 6.6%
- Provincial Operations | 5.9%

Revenues to Success By 6 for 2013-14 totalled \$3,863,762 and came from the following sources:

- \$3,854,254 was received in grants and donations (of which \$3.4M was granted by BC's Ministry of Children and Family Development and \$449,254 was received from the Credit Unions of BC).
- \$9,508 was earned in interest on deposits.

At the beginning of the year (April 1, 2013) there was a carry forward balance of \$535,628. The majority of the carry forward funds (\$466,088) were committed to provincial projects including the Granny & Grampa Connections Box, the Planning for the Seasons Aboriginal Strategic Planning Resource, the ECD Evaluation Project and credit union dues levy projects and grants.

Total expenditures in 2013-14 were \$4,059,416. Figure A above shows the breakdown.

At year end (March 31, 2014), the fund balance is \$339,974.

- \$263,874 of these funds are committed to specific provincial projects including: Aboriginal projects, the ECD Evaluation Project and Credit Union community grants, and Early Years and First Nations parent resources.
- \$76,100 is unrestricted and will be directed towards provincial operations and projects in 2014-15. These unrestricted funds are the result of savings in the 2013-14 provincial operations budget and incremental unbudgeted interest.

Partnerships

The diversity of agencies, Aboriginal organizations, communities, businesses and associations that are partnering with Success by 6 has grown again this year. We are proud to be a catalyst in bringing communities together for children and their families and we offer our sincere thanks to all of the partners listed below for working with us to support all of BC's children.
